Profile

As an experienced and creative web developer, I approach problem-solving with a focus on the broader picture. I am passionate about web development and keep up with the latest techniques and libraries. I enjoy leveraging technology to help solve complex problems efficiently.

Professional Experience

Web Developer - Overhaul Media | Nov. 2019 - Present

- Build, manage, and maintain over 65 repositories of client websites.
- Responsible for developing themes for Shopify, Sanity, WordPress and other CMSs.
- Utilize technologies such as React, Next.js, Nuxt.js, Vue.js, Liquid, Tailwind CSS, and vanilla JavaScript to create scaffolding, templates and apps that address specific client needs.
- Work within a small, agile team, often taking on leadership roles to guide projects and ensure successful outcomes.

Web Developer - Sticks & Stones | June 2018 - Nov. 2019

- Developed, built, and implemented web strategies for a diverse range of clients.
- Collaborated with designers to create collateral and promotional materials.

Marketing - Mud, Sweat & Gears | Nov. 2013 - June 2018

- Created an online catalog of available products.
- Built and designed the website and overall web presence.
- Responsible for creating in-store signage, advertisements, online ad campaigns, and merchandise for the store.
- Contributed to the store's growth to four locations in Alberta.

Freelance Developer/Designer | June 2008 - Present

- Manage and produce a variety of client websites, branding projects, design projects, and marketing campaigns.
- Assist small businesses with their e-commerce, branding, and web presence needs.
- Work with diverse clients, including bands, mitt companies, floral boutiques, and more, to create tailored solutions that meet their specific requirements.
